# Introductory

**T**HIS catalog is prepared especially for your convenience in ordering parts and supplies for Coleman Lamps, Lanterns, Camp Stoves, Irons, Heaters, Burners, Cabin Stoves and Accessories. It gives a complete list of parts with net retail prices for the different models made by The Coleman Lamp and Stove Company.

**When Ordering** always be sure you have given the correct number and description of the part or parts ordered. This insures prompt handling and quick delivery of your order.

**Repair Service**—It is the policy of The Coleman Lamp and Stove Company to co-operate with users of Coleman products in assisting them to secure the largest measure of satisfaction from their purchases. We therefore maintain a Repair and Service Department at each of our branch houses, located at Second and St. Francis, Wichita, Kansas; 332 East Third St., Los Angeles, Calif.; 401 N. Broad St., Philadelphia, Pa.; 589 E. Illinois St., Chicago, Ill., and 825 Southwest 4th Avenue, Portland, Oregon. It is the duty of these departments to furnish operative and handling suggestions and to supply the necessary parts for all Coleman products at reasonable prices.

**How to Ship Packages**—When sending in goods for repairs, service or credit, please observe the following points:

1. See that goods are securely packed to prevent damage in transit.
2. Address package to the Coleman office nearest you and mark it "Attention Repair and Service Department."
3. Be sure to put your name and return address on the package, also.
4. Send package by **insured** parcel post, (insured parcels are traceable), express, or freight.
5. **Prepay all transportation charges.** We do not pay incoming transportation charges, except by special agreement.
6. On the same day that you send the package, write a letter to The Coleman Lamp and Stove Company, Attention Repair and Service Department, and give instructions as to what you wish done. Tell us how the shipment is being sent — by insured parcel post, express or freight. Mail your letter separately — do not send it inside the package.

It is the intention of each Repair and Service Department to handle all items the same day received. By making shipments as outlined above, you will materially assist us in speeding up the service and the attention your orders will receive.

**Returns and Allowances**—Please do not return merchandise to the factory for credit without first having obtained permission for its return. Otherwise this merchandise will be held at owner's risk.

## Where to Send Your Coleman Orders or Send Products to be Repaired

### The Coleman Lamp and Stove Company Offices:

#### Los Angeles Office:

332 East 3rd Street,  
Los Angeles, California.

#### Philadelphia Office:

401 North Broad Street  
Philadelphia, Pennsylvania.

#### Chicago Office:

589 East Illinois,  
Chicago, Illinois.

#### Wichita Office:

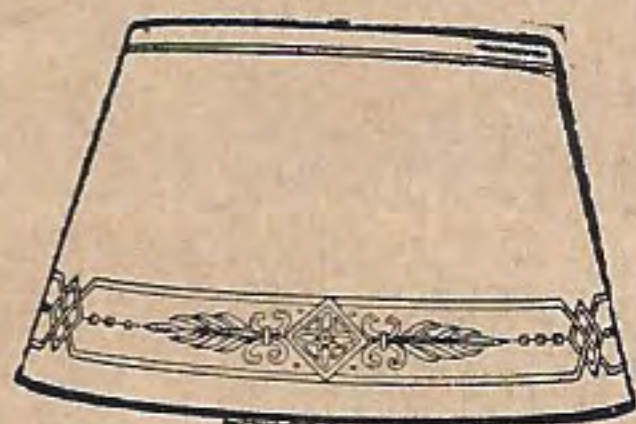

250 North St. Francis,  
Wichita, Kansas.

The above map shows the division of territories for the four different Coleman Offices. Send your orders for Coleman Products and Parts and all correspondence to the Coleman Office in whose territory you are located. You will save both time and expense, if you will follow this suggestion.

Dealers in the states of Washington and Oregon may order parts and get repair service from our Portland, Oregon Office. Address: The Coleman Lamp and Stove Company, 825 Southwest 4th Avenue, Portland, Oregon.

Mica Globe**

For use on Coleman Lanterns Nos. 234, 242, 242A, 242B, 243, and 243A. 3 1/2" diameter, 4 1/8" high. Packed as ordered, one in carton.

**Retail Price, each.....50c**

**No. 130-920 Globe Clamps**

For use on any lamp using 062 Globe except Fixtures 851, 852, 853, 854, 855, 856.

**Retail Price, each......15**

# Coleman Mantles and Generators

## No. 21 Junior—Silk-Lite

New Grade "A," high quality mantle—made of especially treated Rayon fibre—Triple lock weave. Exceptionally sturdy — greater flexibility — lasts longer, gives more and better light—the most economical mantle to use. Packed same as No. 41 Junior Coleman Mantles (see below). Single gross shipping weight, 1 1/4 pounds.

Retail Price, per 1/2 dozen ..... 50c

Retail Price, per dozen ..... \$1.00

## No. 20—Senior Silk-Lite (large) Mantles

Retail Price, each ..... 15c

## No. 41 Junior—Standard Cotton

Made of high-grade long fibre American Cotton, with 3-strand, double twist, 6-cord thread. Each gross packed in handsome counter display carton. Six dozen packed in cartons of one dozen each. Six dozen packed in cartons of one-half dozen each. Single gross shipping weight, 1 1/2 pounds.

Retail Price, per 1/2 dozen ..... 50c

Retail Price, per dozen ..... \$1.00

## No. 40—Senior (large) Mantles

Retail Price, each ..... 15c

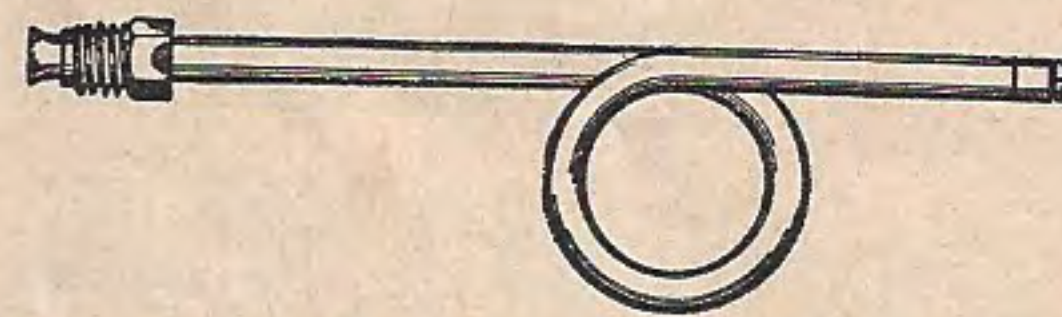

## No. 31 Junior Raytex

An unusually good grade, low priced mantle made of specially selected Rayon fibre, single weave design. While not as good as the Coleman Silk-Lite or Standard Cotton Mantles it has greater durability and gives more light than many so-called "quality" mantles.

Retail Price, per 1/2 dozen ..... 30c

Retail Price, per dozen ..... 60c

## No. Q99 Coil Generator (104-299) (Gas Tip Marked "Q")

Regular standard equipment on all Coleman Quick-Lite Lamps and Lanterns except Nos. 130G, 130P, 131P, 134, 134G, 150B, 150G, 150I, 150R.

Retail Price, each ..... 40c

## No. Q77 Straight Generator (199-299) (Gas Tip Marked "Q")

Standard Equipment on Instant-Lite Models 117, 118, 119, 220 and 228. Can also be used on all Quick-Lite Lamps and Lanterns, except 150B, 150G, 150I, 150R, 134G, 134P. Popular priced, straight-type generator especially made for users who find it necessary to make frequent generator changes on account of low-grade or unfit gasoline.

Retail Price, each ..... 25c

## T44G and T44K 118B299 118C299

## Roto-Cleaning Generator (Gas Tip Marked "V")

No. T44G for Gasoline Lamps and Lanterns 117A, 118A, 118B, 119A, 132A, 133, 134G, 134P, 150B, 150G, 150I, 150R, 220B, 228B.

No. T44K for Kerosene Lamps and Lanterns 129, 129G, 138A, 138B, 150BK, 150GK, 150IK, 150RK, 235.

Retail Price, each ..... 45c

## No. T-51 Generator (151-299) (Gas Tip Marked "Δ")

Used only on No. 151B and No. 151G Lamps.

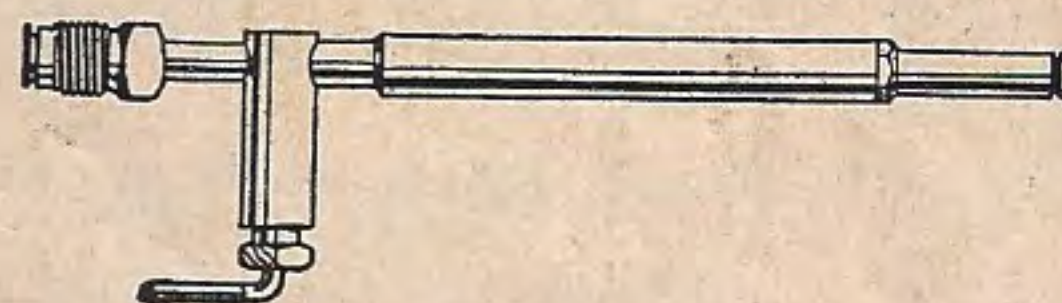

Retail Price, each ..... 45c

## No. T66 Roto-Cleaning Generator (242-299) (Gas Tip Marked "6")

For use only on Coleman Lanterns Nos. 234, 242, 242A, 242B, 243 and 243A.

Retail Price, each ..... 45c

## No. R55 Jumbo Rotary Generator (155B299) (Gas Tip Marked "Q")

Has large carbon space. Special inside construction retards carbon formation, accommodates a wider range of fuels. Longer lasting, more economical, gives more dependable lighting service. Built-in rotary-lever operates cleaning needle, keeps generator tip clean. For use on all Coleman Quick-Lite Lamps and Lanterns and Instant-Lite Lamps and Lanterns Nos. 132P, 117, 118, 119, 220 and 228.

Retail Price, each ..... 55c

## **Always Use Fresh, Clean and Untreated Gasoline in Gasoline Pressure Appliances**

Coleman Gasoline Pressure Appliances are built to operate properly on any good, fresh, clean motor gasoline. "STRAIGHT-RUN" motor gasolines make the best appliance fuels.

Many of the lower priced motor gasolines are excellent fuels for gasoline pressure stoves, ranges, heaters, camp stoves, lamps, lanterns, irons, blow torches, etc.

Do not use any gasoline containing lubricating oils, graphite, or Ethyl fluid. Such substances rapidly clog appliance generators. Many oil companies now market, "Special Gasoline Pressure Appliance Fuels," which are shipped from their refineries in clean new steel barrels. These fuels, which are plainly identified on our approval lists, can be depended upon to give extra long, trouble-free service in gasoline pressure appliances.

Ask your oil company representative if one or more of his gasolines are suitable for this class of service. If he does not know, ask him to find out and arrange to keep on hand a supply of fuel which is suitable for your Gasoline Pressure Appliance.

If you experience any difficulty with your Gasoline Pressure Appliance fuels, write for latest free list of gasolines and, "Special Appliance Fuels," which are approved for appliance use in your state.

### ***Ways to Store and Handle Gasoline used as fuel for Gasoline Pressure Appliances***

1. Keep gasoline in clean, small, closed metal cans. Do not use glass containers even for pouring gasoline. Store in cool place. Exposure to air, sunlight, and heat causes gasoline to become discolored and form gums which rapidly clog generators and other important parts of the appliance.
2. Rest the spout of the gasoline can on the metal funnel, or metal fount of the appliance when filling the fount.
3. Buy a fresh supply often—once a week during hot weather.
4. Clean out fount, or tank, frequently—once a month in hot weather. If the appliance has not been used for several months, rinse the fount with fresh, clean gasoline before using.
5. When an appliance will not be used for a period of time, before storing it away be sure to remove all gasoline from the tank. This will prevent the formation of sour, gummy gasoline which causes generator trouble.
